SUMMARY

Motivated Information Technology undergraduate with strong hands-on experience in full-stack web development, AI/ML systems, and real-world software delivery. Proficient in Java, Python, JavaScript, React.js, Node.js, Spring Boot, and REST APIs with a solid understanding of data structures, algorithms, and software development best practices. Proven ability to collaborate effectively in Agile team environments, lead cross-functional groups, and deliver scalable, production-ready solutions. Actively solving 300+ algorithmic problems on LeetCode and committed to continuous learning across technologies. Seeking an opportunity to contribute meaningfully, grow through mentorship, and create real impact in a dynamic technology organization.

EDUCATION

Dr. N.G.P Institute of Technology	Coimbatore, India
<i>B.Tech in Information Technology — CGPA: 7.93 (No Active Backlogs)</i>	2023 – 2027
Little Angels Hr. Sec. School	Namakkal, India
<i>Higher Secondary Certificate (HSC) — 84.83%</i>	2022 – 2023
Little Angels Matriculation School	Namakkal, India
<i>Secondary School Leaving Certificate (SSLC)</i>	2020 – 2021

TECHNICAL SKILLS

Languages: Java, Python, JavaScript (ES6+), C
Frontend: React.js, HTML5, CSS3, Tailwind CSS, Bootstrap, Responsive Design
Backend: Node.js, Express.js, Spring Boot, REST APIs, Microservices (Basic)
Databases: MySQL, PostgreSQL, MongoDB, Supabase, SQL Query Design
AI & ML: TensorFlow, Pandas, NumPy, Deep Learning, Transfer Learning, Data Pipelines
Tools & Platforms: Git, GitHub, VS Code, Figma, Postman, Android Studio
Concepts: OOP, DSA, Agile/Scrum, SDLC, Authentication, RBAC, Unit Testing, IoT (Basic)

INTERNSHIP EXPERIENCE

Software Development Intern	2025
<i>Nunnari Labs Pvt Ltd</i>	Coimbatore, India
- Constructed and maintained production software modules applying Object-Oriented Programming principles, improving code reusability and maintainability across the codebase. - Collaborated within an Agile/Scrum team, participating in sprint planning, code reviews, and retrospectives to ensure consistent, high-quality delivery of assigned features. - Diagnosed and resolved software defects through systematic root-cause analysis, writing reproducible test cases to prevent regression and improve overall product reliability.	

PROJECTS

Consultancy Shopping Cart — Palamuthir Nilayam <i>React.js, Node.js, MySQL, REST APIs, Chart.js</i>	2026
- Gathered end-to-end business requirements from a retail client and architected a real-time shopping cart and inventory management system with a live owner dashboard and stock management controls. - Integrated comprehensive daily, weekly, and monthly analytics reports with interactive Chart.js visualizations, reducing manual tracking effort by 60% and enabling data-driven decisions. - Delivered the complete solution through a structured SDLC process — requirements, design, development, testing, and deployment — with clear stakeholder communication throughout.	
Hostel Management System <i>React.js, Node.js, PostgreSQL, JWT, RBAC</i>	2025
Engineered a scalable full-stack platform serving 300+ users, implementing JWT-based authentication and Role-Based Access Control (RBAC) for student and administrator roles.	

- launched **10+ functional modules** covering room allocation, complaint management, and fee tracking, substantially reducing manual administrative workload.
- Optimized PostgreSQL schemas and SQL queries to support high-volume concurrent user operations with consistent performance and data integrity.

Brain Tumor Detection and Classification | *Python, TensorFlow, Pandas, EfficientNet-B0, VGG16* 2026

- Designed an end-to-end deep learning pipeline — data ingestion, Pandas preprocessing, augmentation, and model training — attaining **95% prediction accuracy** via transfer learning.
- Deployed an interactive GUI enabling non-technical medical users to upload MRI scans and receive real-time classification results, validated through thorough user acceptance testing.

Agrilink — Direct Marketing Platform for Farmers | *React.js, Node.js, MongoDB, REST APIs* 2024

- Developed a full-stack platform connecting farmers directly with consumers, eliminating intermediaries and enabling transparent real-time price negotiation via RESTful APIs.
- Crafted a fully responsive React.js user interface ensuring cross-device accessibility for rural users operating in low-bandwidth environments.

LEADERSHIP & EXTRACURRICULAR ACTIVITIES

Hackathon Team Lead — Multiple National Events 2024 – 2025

- led cross-functional teams across multiple national and collegiate hackathons, coordinating task delegation, resolving conflicts, and maintaining morale during intensive 24–48 hour sprints — achieving Top 10 at IIT Madras Shaastra and Top 100 nationally at ICT Hackathon 2025.
- Facilitated planning meetings and post-sprint retrospectives, demonstrating strong interpersonal, communication, and leadership skills across diverse team environments.

Class Representative | NSS Volunteer | Industry Visits 2023 – 2025

- Served as elected Class Representative for 60+ students, acting as the primary liaison between students and faculty on academic concerns, scheduling, and institutional matters.
- Contributed as NSS Volunteer in community outreach programs, co-organized **5+ intercollege technical events**, and attended multiple industry visits to technology organizations.

ACHIEVEMENTS

Hackathons & Competitions

- **1st Place** — BugBash (Code Debugging), GCT 2025 | **3rd Place** — WebWizard (Web Development), GCT 2025.
- **ICT Hackathon 2025** — Top 100 / 3,000+ teams | **Shaastra 2025, IIT Madras** — Top 10 / 500+ participants.

Competitive Programming Ongoing

- Solved **300+ algorithmic problems** on LeetCode spanning arrays, dynamic programming, graph traversal, and tree structures.

CERTIFICATIONS

Human Computer Interaction — NPTEL | *Elite + Gold, 91%* 2026

Foundations of R Software — NPTEL | *Elite + Silver, 86%* 2024

Introduction to Internet of Things — NPTEL | *Elite, 64%* 2025

Full Stack MasterClass — NoviTech 2024
